

# Monoclonal antibody to Human CD8

|                       |                                                                                                                                                                                                |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Antibody:</b>      | CD8-1                                                                                                                                                                                          |
| <b>Product code:</b>  | 3607-1-250                                                                                                                                                                                     |
| <b>Quantity:</b>      | 250 µg                                                                                                                                                                                         |
| <b>Immunogen:</b>     | Stimulated human leukocytes                                                                                                                                                                    |
| <b>Isotype:</b>       | Mouse IgG1                                                                                                                                                                                     |
| <b>Specificity:</b>   | Recognises human CD8                                                                                                                                                                           |
| <b>Concentration:</b> | Supplied at 1 mg/ml in sterile filtered (0.2 µm) PBS. Contains no preservatives.                                                                                                               |
| <b>Purification:</b>  | Purified from <i>in vitro</i> cultures by protein G affinity chromatography.                                                                                                                   |
| <b>Storage:</b>       | Store product at 4-8°C or frozen at -20°C or below. Avoid repeated freezing/thawing.                                                                                                           |
| <b>Applications:</b>  | Detection of CD8 on cells by e.g. immunofluorescent staining of cells or tissue sections. For flow cytometry staining of paraformaldehyde fixed cells, fixation is recommended after staining. |
| <b>Protocols:</b>     | For further information, please contact Mabtech.                                                                                                                                               |
