

Novex® Tris-Glycine SDS Buffer Kit

(Novex®)

描述

Pre-mixed buffers are a convenient way to ensure high-quality, consistent electrophoresis results. All buffers are made with high-purity reagents and are strictly quality controlled. The buffers are provided as a concentrated solution requiring a simple dilution with deionized water before use.

货号 **LC2677**

包装 **1 kit**

详细说明

常用规格

Gel Type:	SDS PAGE Gel
Buffer Type:	Sample Loading Buffers
Product Size:	1 kit
Gel Compatibility:	Novex®Tris-Glycine Gels
Regulatory Statement:	For Research Use Only. Not for use in diagnostic procedures.

内容和储存

All Novex® buffers have a 6 month shelf life. Store at +4°C to 25°C, depending upon formulation.
