

NuPAGE® Transfer Buffer (20X)

(Novex®)

货号 **NP0006**

包装 **125 ml**

描述

NuPAGE® Transfer Buffer (20X) is a buffer used to transfer proteins from NuPAGE® Novex® gels to membranes for Western blotting. NuPAGE® Transfer Buffer can be used with the [Novex® Semi-Dry Blotter](#) for semi-dry transfer or with the [XCell II™ Blot Module](#) for wet (tank) transfer.

[NuPAGE® Antioxidant](#) may be used with NuPAGE® Transfer Buffer to enhance transfer of reduced proteins to membranes.

详细说明

常用规格

Gel Type:	NuPAGE® Gel
Buffer Type:	Transfer Buffers
Concentrated:	20 X
Product Size:	125 ml
Gel Compatibility:	NuPAGE® Gels
Shipping Condition:	Room Temperature
Regulatory Statement:	For Research Use Only. Not for use in diagnostic procedures.

内容和储存

Store at +4°C to 25°C. Guaranteed stable for 6 months unless otherwise specified in the product literature.
