DEPC-treated Water

Cat. No. 10813-012
Lot No.

Size: 4 × 1.25 ml
Store at -20°C.

Description:

DEPC-treated Water is useful in experiments involving RNA. Processed water is incubated with 0.1% diethyl pyrocarbonate (DEPC), an RNase inhibitor, and then autoclaved to remove the DEPC.

Component:

Y01138	DEPC-treated Water	Lot No.
--------	--------------------	---------

Quality Control:

This product has passed a quality control assay that verified the absence of detectable levels of ribonuclease activity.

Doc. Rev.: 100298

This product is distributed for laboratory research use only. CAUTION: Not for diagnostic use. The safety and efficacy of this product in diagnostic or other clinical uses has not been established.
