

Rantes (Ms) ABfinity™ Recombinant Rabbit Monoclonal Antibody - Purified

Catalog no. 701030

(See product label for lot information)

Clone/PAD: 25H14L17
Isotype: IgG
Gene ID: 20304
Protein Acc. no.: P30882
Qty: 100 µg
Volume: 200 µl
Concentration: 0.5 mg/mL

Formulation

PBS + 0.09% sodium azide

Validation

See www.invitrogen.com/antibodies for protocols

Validated for use in WB

Immunogen

Recombinant protein

Sequence Identity

Mouse

Sequence Homology

Rat and human

Expected Reactivity

Based on sequence identity and similarity, reactivity to mouse, rat and human is expected.

Storage

2-8°C for up to 1 month, -20°C for long term storage. Avoid repeated freezing and thawing.

Expiration Date

Expires one year from date of receipt when stored as instructed.

Background

Rantes (regulated upon activation, T cell expressed and secreted) gene is one of CC cytokine genes which are present on chromosome 17 clustered on q arm and is associated with the inflammatory response (1). Rantes functions as a chemoattractant for blood monocytes, eosinophils, and memory T helper cells (2-3). Rantes shows inhibition of replication/entry of various strains of HIV and SIV (4-6).

Following applications had been tested during development. To make sure the consistency and reliability in the future lots, each lot is tested with antigen ELISA for specificity and potency. Each lot is also tested with SDS-PAGE, to ensure high purity.

Applications:

	Species	Test Material	Concentration
Western Blotting	Mouse	Rec Ms. Rantes	0.1-5 µg/ml

For research use only. CAUTION: Not for human or animal therapeutic or diagnostic use.

By use of these products you accept the terms and conditions of all applicable Limited Use Label Licenses. Unless otherwise indicated, these products are for research use only and are not intended for human or animal diagnostic, therapeutic or commercial use.

**Western Blot of Rantes (Ms) labeled with rabbit anti-Rantes (Ms)
(Cat. No. 701030).**

Rabbit anti- Rantes (1 µg/ml) was used to label Rantes (Ms) in Rec Ms Rantes (1 ng, Lane1) and Rec Rat Rantes (1 ng, Lane 2). The western was performed using the WesternBreeze® kit with NBT/BCIP as the substrate (Cat. No.WB7105).

Explanation of symbols

Symbol	Description	Symbol	Description
	Catalogue Number		Batch code
	Research Use Only		<i>In vitro</i> diagnostic medical device
	Use by		Temperature limitation
	Manufacturer		European Community authorised representative
	Without, does not contain		With, contains
	Protect from light		Consult accompanying documents
	Directs the user to consult instructions for use (IFU), accompanying the product.		

For research use only. CAUTION: Not for human or animal therapeutic or diagnostic use.
